

Nikita Sherbakov

Software Developer & Designer

I have over nine years of experience building web projects of different kinds, starting from small websites to Design Systems and complex web services.

Currently, I'm leading the frontend development of the analytical tool by creating and maintaining architecture and new customer-facing features.

Experience

Software Developer / Scrum Master

12.2019 - Present • Vaisala Oyj

I'm leading the frontend development of the analytical tool by creating and maintaining architecture and new customer-facing features.

UX Developer / Design System Specialist

06.2018 - 12.2019 • Nordcloud Oy

I was responsible for developing several web services as well as Design Systems for various corporate customers.

Web Developer

09.2017 - 06.2018 • Playmore Games Oy

I built a tool from the ground up for board game publishers to create rulesets via an interactive web interface.

IT Specialist / Forwarder

01.2013 - 09.2017 • Goodpri Oy

I had a wide range of responsibilities starting from customs clearance and freight orders to office IT support and web application enhancements by gathering requirements and writing tasks for developers.

Freelance Web Designer

09.2011 - 09.2017 • Freelance

It was the official start of my career in the web field. I was involved in dozens of projects as a UI/UX designer and web developer by designing and building web pages and services mockups.
